With the increase in active shooter events, we can no longer afford to not be prepared when an event strikes. C.R.A.S.E., Civilian Reaction Active Shooter Events, is the first place to start in developing a plan and being prepared. This training will help to prepare you, no matter whether you are at work, home, or the mall, to have a plan, and be prepared. This 90 minute session will take you from a potential victim mentality to a victor mentality and help you to develop a plan of preparedness.
