PRESENTERS:

**Anthony Estreet, PhD,
LCSW-C, LCADC,**

Executive Director, Next Step Treatment Center.

Anthony is an

experienced

client-centered therapist coupled with strengths in developing and delivering effective training.

COURSE DESCRIPTION:

The goal of this project is to provide a standardized set of trainings and supervisory supports to service providing organizations that will: 1. improve outcomes for patients who have co-occurring disorders, 2. Improve organizational outcomes, staff morale, and organizational efficiencies.

LEARNING OBJECTIVES:

- Describe the purpose of the CCISC model.
- Define the key elements of the CCISC Model that allows programs of every level to respond to the needs, desires, and interests of all persons served (and their families).
- Understand the importance of implementing CCISC as an ongoing quality improvement process and addressing the needs of individuals with co-occurring disorders.
